

TOWN OF HURLEY
LIST OF REQUIRED INSPECTIONS
***CALL 845-331-7474, x3 AT LEAST 2 BUSINESS DAYS IN ADVANCE TO
SCHEDULE***

1. Work site prior to the issuance of a permit.
2. Footing and foundation
3. Foundation damp-proofing and perimeter drains
4. Preparation for concrete slab
5. Framing –before and after rough-in
6. Plumbing and electric, including underground and rough-in
7. Fire-resistant construction
8. Fire-resistant penetrations
9. Solid fuel-burning devices, heating appliances, chimneys, flues, & gas vents
10. Energy code compliance
11. Insulation and air barrier
12. Final inspection after all work authorized by the permit has been completed

After inspection, the work or portion thereof shall be noted as satisfactory as completed, or the permit holder shall be notified as to where the work fails to comply with the Uniform Code. Construction work not in compliance with code provisions shall be required to remain exposed until it has been brought into compliance with the code, been re-inspected, and found to be satisfactory as completed.

Inspections **must** be performed before the next stage of construction may commence. Other individual component inspections may apply to any other work that requires a permit, including structural repairs, swimming pools and enclosures, mechanical systems extension, mating walls, etc. Electrical work must be inspected by an approved third-party electrical agency previously approved by the Town of Hurley (list available in Building Dept.).
