

Minutes

Town of Hurley Zoning Task Force

Wednesday June 22, 2022, via Zoom

ZTF Members in Attendance: Peter McKnight, Frank Spinelli, Abby Gross, George Rodenhausen, Lynne Bailey

Town Board liaison: Gregory Simpson - excused

- **OLD BUSINESS:**

- Chickens and Bees – awaiting EAF, then to county for comment, then public hearing.
- Updating noise code – Frank and George presented updated version. Lynne was the lone dissenter of one provision. Lynne volunteered to edit formatting, then send back to Frank for final review. Frank will send to Peter who will send to Gregory along with the ZEO proposal so Gregory can present both to the Town Board.
- Light code – much discussion but with progress – Frank will revise to separate new lighting from existing lighting (eg lights out by a certain hour would apply to all, while rules re: installations would apply to new construction and new installations on existing properties. He will also consider how to address solar powered path lights.
- Creating an additional zoning enforcement officer (ZEO) position and leaving CEO as building inspector – George researched and used Hyde Park as model. Ready to send to Gregory/Town Board but will send at same time as noise code.
- Code regarding hawkers and peddlers: the big issue are the fees which are set by the Town Board so no action on our part will assist, except that we can propose to delete the \$5000 surety bond. Peter will look at this again and inform Gregory re fees and progress.
- Regulating drainage and steep slopes (revisiting from last year) – Melinda will see if there is budget for Bonnie to work on a map for Hurley.
- Protection against clearcutting (revisiting from last year) – Tabled until July.
- Adopting stretch energy – in transition so will wait.

- **NEW BUSINESS:**

- None

- **PUBLIC COMMENT:**

- None

- **OTHER:**

- May Minutes approved
- Meeting adjourned approximately 9 pm
- Recording sent to Samara via Google Drive
- Next Meeting date: July 27, 2022
